

GRAPHIC + INDUSTRIAL DESIGN

career fair

MARCH 20, 2017

Welcome,

Thank you for your interest in the Career Fair for Industrial and Graphic Design!

The College of Architecture, Design and Construction is thrilled that you have decided to join us for this event, which emphasizes our Industrial Design program. The Industrial Design program is known for product innovation, point of purchase design, commercial environments, and branding. While this career fair will emphasize Industrial Design, there will be plenty of students in our Graphic Design program that will also be seeking opportunities.

Without the support of our partners, who are willing to come to the campus to recruit and talk to students, the CADC would not be equipped to maintain the competitiveness of our programs. With tremendous gratitude, we thank you for your dedication to advancing the Industrial and Graphic Design programs.

The CADC recognizes that it takes time and effort to travel to Auburn and speak with our newest group of designers. We sincerely hope you find this trip to be beneficial to your firm and welcome any feedback you may have for us. Shortly after the career fair, we will be emailing you a link to an online survey where you will have an opportunity to tell us what you did and did not like as well as how we can enhance the experience for you in the future. We appreciate your participation and look forward to reading your responses.

Lastly, you will find enclosed details of the event as well as a registration form. We ask that you return the registration form and payment no later than March 9th, 2017. We will be developing a guide for the students prior to the career fair and would like for it to be as accurate as possible. In addition, we will be sending out resumes and work samples of the Industrial Design students to all firms who have paid and registered on March 12th.

Again, thank you for registering for the CADC Design Career Fair at Auburn University. We are looking forward to seeing you on March 20, 2018!

Warmest Regards,

Crystal Jalil
