FASHION AND APPAREL DESIGN

Over ten years of professional experience in the fashion and apparel design industry. Experienced providing design and trend direction for each season and meeting with customers. Works with patternmakers and technical design team to create e-patterns and tech packs. Shops the market for inspiration and works on new specs. Communicates with overseas factories for samples and sourcing new trims and fabrics. Continuously creates sketches, CADs/line and works with sales, production team closely to ensure customer's needs are met. Reviews proto samples, confirms design development and provides comments.
