Professional Profile

Construction manager with 19+ years of industry experience spanning commercial, residential, multi-family, processing facilities and oil & gas on an international scale. Proven business owner with 5+ years of successfully scaling construction and service companies through disciplined project execution, operational efficiency, and strong client relationships. Diverse knowledge of business development, real estate transactions, capital funding and full project lifecycles.

Professional Experience

Rig Supervisor Intern

ExxonMobil, Bakersfield, CA

May 2013 – August 2013

- Facilitated hazard identification, toolbox talks, and Job Safety Analyses.
- Logged drilling parameters, recorded cement operations, and calculated casing, liner, and pipe tallies.

Oil and Gas Construction Assistant Superintendent

ExxonMobil, Sakhalin Island, Russia

March 2014 – March 2017

- Stewarded mechanical completion, punch list closeout, and turnover to operations.
- Verified compliance with ExxonMobil safety standards, project specifications, and regulatory requirements.
- Led shutdown planning and execution, including isolation plan reviews, material tracking, site walks, and go/no-go progressions.

Construction Advisor

ExxonMobil, Houston, TX

April 2017 – May 2017

- Conducted an industry-wide case study analyzing data from 26 fabrication yards globally and processed over 10,000-line items.
- Forecasted fabrication market health and identified prospects for upcoming projects.
- Developed analytical packages used by ExxonMobil Vice Presidents and Presidents.

First Line Supervisor

ExxonMobil, Baton Rouge, LA

June 2017 – March 2018

- Managed 6–8 subcontractors and coordinated facility unit outages, site logistics, and turnovers.
- Reinforced safety standards through toolbox talks, audits, and daily shift reviews.
- Worked with contractor superintendents to mitigate field clashes, design errors, and unforeseen conditions.
- Managed RFIs, drawing transmittals, red-lines, FCOs, subcontractor bids, estimates, and awards.

Project Manager

Carter and Carter Construction, Auburn, AL

March 2018 – March 2019

- Managed a \$43 million multi-family development totaling nine buildings, 308 units, and a clubhouse.
- Developed contracts, conducted bid analyses, and led construction kick-off meetings with subcontractors.
- Oversaw project budgets, invoices, change orders, pay applications, and material procurement.
- Maintained daily client interaction to ensure satisfaction and project transparency.
- Supervised field teams and project engineers to manage submittals, RFIs, daily reports, and document control.

Project Superintendent

Gamble and Winter Construction, Auburn, AL

July 2019 – July 2021

- Directed daily operations for commercial projects, including self-performed scopes such as building layout, foundation excavation, reinforcement, and concrete placement.
- Supervised 3–5 employees and two interns, supporting their development in field execution, sequencing, drawing interpretation, and equipment operation.

Founder
